C.N.P. Jaycees Host Spring Convention

The Crows Nest Pass Jaycees were hosts to the District One Jaycees Spring Conference held at Frank over the past week end attended by over fifty representatives from Medicine Hat, Taber, Lethbridge and also Pincher Creek who are planning on forming a Jaycees group.

The affair got underway Saturday afternoon when the visitors were taken on a complete tour of the Crows Nest Pass district - starting at Lundbreck, where the visitors viewed the famed "Double Decker".

Included in the tour were Crows Nest Mountain, the Adanac Summit, Crows Nest Lake, Sawmills and the Frank Slide, where, while visitors were viewing the sights, a long-bearded old man (Gus Russell of Blairmore) came out of the rocks and portrayed himself as a survivor of the Slide.

Besides this pre-arranged highlight the visitors were taken to a camp ground at the east end of Frank Lake where enjoyable refreshments and coffee were awaiting the hungry visitors.

During the evening a business meeting was held, followed by a late supper.

On Sunday morning the spring conference got underway and the

Jehovah's Witnesses To Resume Regular Meetings

The Coleman congregation of Jehovah's Witnesses will resume regular meetings again this week after the three-day convention in the Hamilton Junior High School. Mr. W. L. Krish, presiding minister of the Coleman congregation of Jehovah's Witnesses reported an attendance of 489 for the main discourse Sunday afternoon.

A number of delegates from the Taber and Fort Macleod congregations served as department heads at the convention. Mr. John Jones was in charge of refreshments and Mr. Gerald McKee was in charge of the cafeteria arrangements for the assembled delegates. A highlight of the assembly on Saturday was the ordination of three new ministers by public water baptism. "This public immersion in water" said Mr. Krish, "has scriptural precedent." Each candidate underwent complete water immersion as a symbol of his dedication to do the will of God as his ministers.

Climaxing the week-end's activity, Mr. D. Arnett, the guest speaker from the Society's branch office in Toronto, discussed the subject "Who Will Win the Struggle for World Supremacy?"

Mr. Arnett said, "The true cause for world supremacy is greater than the East-West conflict. It involves the Sovereignty of the Creator of all things, Jehovah God. It is God's Heavenly Kingdom Government that resumes rulership of the earth that resolves the world struggle for supremacy."

"This is clearly depicted in the Bible prophecy at Daniel 2:44." In his closing remarks Mr. Arnett urged that in the face of the present world situation, all Christian ministers should take this issue of supremacy seriously.

"Tour-ists" Return From California

Forty-five tired but better informed Albertans returned to their homes on March 24, having completed a tour of the vegetable-growing areas of California. Sponsored by Chambers of Commerce, grower organizations, co-ops and agri-businesses, the tour provided an opportunity for first hand study of planting, growing, grading, packaging and marketing methods in the "Sunshine State".

One of the first facts made evident to the visitors was that California growers have been able to discover ways and methods of solving their many problems. Although they are envied by those in other climes, their 12-month growing season and two or three crop yield means a 12-month work plan.

One example whereby many growers have met vigorous competition is worthy of mention.

They devised a system for growing vegetables on raised beds of various shapes and sizes, with furrow irrigation between the beds. Sloping of the beds, as well as "brushing" on the north side of each row, gave them 3 to 7 days earlier harvest and a higher market price. Another problem, that of alkali and salinity, has been solved by repeated flooding of the land.

Labor too has been of major concern in California as in Southern Alberta, but the Mexican National has filled this void. A minimum wage of \$1.00 an hour is paid for workers who are brought up from Mexico under contract to work on specific crops.

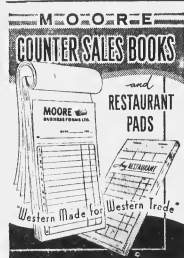

These workers are housed in dormitories located at a central point operated under government regulations. It was stated that the majority of these men would return home after their three-month contract period with \$300 to \$400 in savings, which represented a buying power of \$3,000 in Mexico.

The success of operations in Southern California led the group to two important conclusions. Firstly most problems in that area have

been successfully met by experiments followed by constructive action. Secondly, when faced with market problems, growers work together as a non-compulsory group to study the situation and arrive at an answer which satisfies everyone.

Throughout the tour guides and organizers were supplied by the Chambers of Commerce, County Farm Advisors and the utility companies of California. As a result the Canadians were able to view and study a wide variety of crops. These included lettuce, celery, radishes, green onions, tomatoes and cole crops. Many of these were produced by small specialty operators. On the other hand an interesting sidelight to vegetable growing was a look at one strawberry patch encompassing 900 acres.

Calgary Power Ltd., who assisted in the organizing of this tour, believes that tangible results of the trip will not be felt for from two to five years. Improvements will gradually be made in the growing and marketing of Alberta fresh vegetable crops. Many obvious changes can be made immediately and no doubt even this year some of the growers may experiment with practices observed in California. This exchange of information makes for better understanding which will lead to future contracts between hosts and visitors.
